

Maths: Entry Level 3

Course overview

This course is suitable for learners who want to improve their maths skills and gain more confidence in understanding and using maths in everyday life and work. You can work towards your own goals and take a nationally recognised qualification at Entry 3.

What will I study?

On this course you will cover the following topics:

- working with whole numbers to add and subtract
- multiplication and division with whole numbers
- fractions, decimals and percentages
- measurements
- shapes and space
- working with data

Assessment method

Online and paper-based assessments

Individual, group work and communication activities

Throughout the course you will also receive feedback from your tutor and learn the skills to self-reflect and evaluate your progress.

Entry requirements

You will need to complete a maths access course or a maths introduction course prior to enrolling on this course to ensure this course is at a suitable level for your needs.

What should I bring with me?

You will need to take notes so bring along your preferred tools such as a pen and paper or an electronic device. An A4 ringbinder folder and a simple calculator will also be essential.
