

Maths: Entry Level 3

Course overview

This course is suitable for learners who want to improve their maths skills and gain more confidence and understanding in maths in everyday life and work. You can work towards your own goals and take a nationally recognised maths qualification at Entry 3.

What will I study?

On this course you will cover the following topics:

- Working with whole numbers to add and subtract
- Multiplication and division with whole numbers
- Fractions, decimals and percentages
- Measurements
- Shapes and space
- Working with data

Assessment method

Various assessment methods, including on-line and paper-based assessments, individual, group work and communication activities, and given feedback on your progress. Throughout the course you will also receive feedback from your tutor and learn the skills to self-reflect and evaluate your progress.

Entry requirements

You will need to complete a maths access course or a maths introduction course prior to enrolling on this course to ensure this course is at a suitable level for your needs.

What should I bring with me?

You will need to take notes so bring along your preferred tools such as pen/paper or electronic device. An A4 ringbinder folder and a calculator will also be essential.

Key information

Where possible this course will take place on site with social distancing measures in place. In the event of a lockdown, the course will take place online via MS Teams and telephone support.

Possible next steps

Following the successful completion of this course, you will be supported to enrol on to the most suitable level course for you.
