

Maths: Access to Level 2

Course overview

Do you want to improve your maths skills? Did maths at school leave you confused? If you believe you would benefit from improved maths skills, whether this is to improve your job prospects, help your children with their homework, or as a stepping-stone to further study this will be the ideal starting point. We can help you realise your maths potential.

What will I study?

You will work towards identifying and developing your mathematical skills and be introduced to the following topics:

- Working with large numbers
- Working with fractions,
- Decimals and percentages
- Perimeter, area and volume
- Shapes and symmetry
- Using a calculator
- Simple statistics
- Probability

Assessment method

Various assessment methods, including on-line and paper-based assessments, individual, group work and communication activities, and given feedback on your progress. Throughout the course you will also receive feedback from your tutor and learn the skills to self-reflect and evaluate your progress.

Entry requirements

You will need to complete a maths introduction course prior to enrolling on this course to ensure this course is at a suitable level for your needs

What should I bring with me?

You will need to take notes so bring along your preferred tools such as pen/paper or electronic device. An A4 ringbinder folder and a calculator will also be essential.

Key information
