

Maths Level 2 Intensive - Online

Course overview

An intensive 18-week L2 maths course for learners who are working at L2 and want to gain a functional skills qualification. A functional skills maths qualification can help you progress in education, training and employment and make a positive contribution to your community.

What will I study?

Topics covered will include:

- Working with large numbers
- Working with fractions,
- Decimals and percentages
- Perimeter, area and volume
- Shapes and symmetry
- Using a calculator
- Simple statistics
- Probability

Assessment method

Various assessment methods, including on-line and paper-based assessments, individual, group work and communication activities, and given feedback on your progress. Throughout the course you will also receive feedback from your tutor and learn the skills to self-reflect and evaluate your progress.

Entry requirements

You will need to be working at L2 and complete a maths introduction course to ensure this course is at a suitable level for your needs.

What should I bring with me?

You will need to take notes so have your preferred tools such as pen/paper or electronic device available. An A4 ringbinder folder and a calculator will also be essential

Key information

This course will take place online via MS Teams.

Possible next steps

Following the successful completion of this course, you will be supported to enrol on to the most suitable level course for you.
