

Maths Workshop – Decimals and Fractions

Course overview

This short workshop is suitable for learners who want to improve their maths skills and gain more confidence in using decimals and fractions.

What will I study?

On this course you will cover the following topics:

- Understanding and Using Decimals
- Understanding and Using Percentages
- Use a calculator to solve everyday and exam problems

Assessment method

Various assessment methods, including on-line and paper-based assessments, individual, group work and communication activities, and given feedback on your progress. Throughout the course you will also receive feedback from your tutor and learn the skills to self-reflect and evaluate your progress.

Entry requirements

You will need to be currently attending a maths course at the adult college.

What should I bring with me?

You will need to take notes so bring along your preferred tools such as pen/paper or electronic device. An A4 ringbinder folder and a calculator will also be essential.

Key information

Where possible this course will take place on site with social distancing measures in place. In the event of a lockdown, the course will take place online via MS Teams and telephone support.

Possible next steps

Following the successful completion of this course, you will be supported to enrol on to the most suitable level course for you.
