

Get Ready for Functional Skills Maths

Course overview

Do you want a maths qualification? Not sure if Functional Skills maths is for you? This maths course gives you an overview of the skills you will learn when you progress onto a maths course. You will develop the skills that will support you to feel confident in progressing to a functional skills course.

What will I study?

On this course you will be introduced to:

- Multiplication and division with whole numbers
- Fractions, decimals and percentages
- Measurement
- Shapes and space
- Working with data

Assessment method

Various assessment methods, including on-line and paper-based assessments, individual, group work and communication activities, and given feedback on your progress. Throughout the course you will also receive feedback from your tutor and learn the skills to self-reflect and evaluate your progress.

Entry requirements

You will need to complete a maths introduction course to ensure this course is at a suitable level for your needs.

What should I bring with me?

You will need to take notes so bring along your preferred tools such as pen/paper or electronic device. An A4 ringbinder folder will also be essential.

Key information

This course will take place on site. In some unexpected situations, sessions may take place online via Microsoft Teams.

Possible next steps

Following the successful completion of this course, you will be supported to enrol on to the most suitable level course for you.
