

Maths Introduction

Course overview

If you believe you would benefit from improving your maths skills, whether to help you improve your job prospects, help your children with their school work, or as a stepping stone to further study, this is the starting point for you.

This is an informal course suitable for anyone. It will provide the first step to ensuring that you are on the right course for your current level of skills and needs.

What will I study?

You will:

- Complete an on-line assessment. This is not a test but will identify your current skills level.
- Discuss your goals and areas for improvement to plan a way forward.
- Be introduced to the college on-line learning system so that you can access classwork/homework from home.

Assessment method

- Online initial and diagnostic assessments

Entry requirements

There are no formal entry requirements.

What should I bring with me?

You may want to take notes so bring along your preferred tools such as a pen and paper or an electronic device.

Key information

Where possible this course will take place on site with social distancing measures in place. In the event of a lockdown, the course will take place online via MS Teams and telephone support.

Possible next steps

Following the successful completion of this course, you will be supported to enrol on to the most suitable level course for you.
