

Family Learning Maths KS2 SATs support for Parents

Course overview

This course is designed for parents/caregivers of KS2 children. Because everything appears to be taught differently these days, it is natural for any parent/carer to want to regain confidence in their ability to support their child. This course will help you improve your mathematical skills and gain confidence to support your children as they prepare for their end-of-year KS2 SATs.

What will I study?

Please note that to have the opportunity to ask questions about the courses and get a good overview of what you will be learning you must enroll on the taster associated with the course.

During the course you will:

- Be clearer about what numeracy skills are taught in school and how you can support your children,
- Be introduced to several methods and strategies to help your children when they get ready to sit their SATs exams.
- Be able to increase your knowledge of math and develop your own mathematical skills.
- Improve your numeracy skills and increase your confidence when helping your children with their homework.

Assessment method

There will be activities for you to complete at home with your child, to practise and apply what you have learnt.

Entry requirements

This course is for parents/carers who wish to develop their own math skills to be able to support their KS2 children. In order to ask questions and understand what you will be learning, you must also complete the taster associated with the course.

What should I bring with me?

You will need to bring a pen, paper or any other note taking device for this session. You will be given the opportunity to access our online learning platform. For this you will need to have access to a mobile phone or any other electronic device.

Key information

This course will take place on site. You are advised, and will be supported, to install our learning platform Teams on your phone or any other electronic device. You will be able to access all the course resources and communicate with your teacher via Teams.

Possible next steps

After completing these courses successfully, you will be supported to enrol onto the most appropriate progression course at the college. We offer various Vocational, Multiply, Math, English, ESOL and Digital skills courses.
