

Multiply Family Learning Math for Parents

Course overview

This course is designed for parents/grandparents/caregivers whose children attend school. This course will help you improve your math skills and feel more confident when assisting your child with his or her math learning.

What will I study?

You will:

- Be better equipped to support your children with their numerical development.
- Increase your understanding of Math.
- Be encouraged to assess your own numeracy needs.
- Develop your own mathematical skills.

Assessment method

There will be learning activities for you to complete to assess your understanding and show your progress.

Entry requirements

This course is for all parents/ carers.

What should I bring with me?

You will need to bring a pen, paper or any other note-taking device for this session. You will need to have access to a mobile phone or any other electronic device. Please speak to your teacher if you have issues with online access.

Key information

This course will take place on site, at your child's school. You are advised, and will be supported, to install our learning platform Teams on your phone or any other electronic device. You will be able to access all the course resources and communicate with your teacher via Teams. In the event of a lockdown, the course will take place online via MS Teams.

Possible next steps

Following the successful completion of this course, once you are ready you will be supported to enroll on one of our introduction courses or progress onto any other relevant courses at the college.
