

Understanding KS2 Maths Taster

Course overview

This is a 2-week taster session to give you an idea of the content of the Understanding KS2 Maths. You will be introduced to the focus of the full course which will clarify the variety of techniques used by your child's school to teach Math Skills at Key stage 2 (7-11 years). You will have the chance to ask questions about the course and improve your understanding of how it will help you to support your child with their Maths' learning.

What will I study?

You will:

Start to work towards extending and developing your mathematical skills.

You will be introduced to the content of the full course.

You can ask questions about the different mathematical methods used in schools.

You will have the opportunity to consider parts of the numeracy curriculum that you might want to revisit to refresh or develop your own math skills.

You will be clearer about how you can support your children with their Math's learning.

Assessment method

You will have the opportunity to assess your own needs and set goals for you to achieve during the course.

Entry requirements

This course is for all parents/carers of key stage 2 children (year 3 to year 6)

What should I bring with me?

You will need a pen and paper or any other note taking devices. You will also need a device (Mobile phone, tablet, laptop) to access MS Teams.

Key information

Where possible this course will take place on site at your child's school with social distancing measures in place. In the event of a lockdown, the course will take place online via MS Teams.

Possible next steps

Following the successful completion of this course, you will be supported to enrol on to the 8 weeks course, or on to one of our exciting Math introduction courses.
