

Family Learning Understanding KS2 Maths

Course overview

This course is for parents/grandparents/carers of Key Stage 2 pupils (children aged 7-11). This six (6) week-course will enable you to feel more confident when helping your child with their reasoning and solving problems skills. You will also work towards developing your own mathematical skills.

What will I study?

Please note that to have the opportunity to ask questions about the courses and get a good overview of what you will be learning you must enroll on the taster associated with the course.

You will:

- Learn about Math for children aged 7-11.
- Be better equipped to support your children with their numerical development.
- Increase your understanding of Math and how it is taught in schools.
- Be encouraged to assess your own numeracy needs.
- Develop your own mathematical skills.
- Be able to increase your confidence when helping your children with Math.

Assessment method

There will be learning activities for you to complete to assess your understanding and show your progress. You will be encouraged to do some math with your child at home.

Entry requirements

This course is for parents/carers of the Borough's Key Stage two (KS2) children (Years 3 to 6). In order to ask questions and understand what you will be learning, you must also complete the taster associated with this course.

What should I bring with me?

You will need to bring a pen, paper or any other note-taking device for this session. You will need to have access to a mobile phone or any other electronic device. Please speak to your teacher if you have issues with online access.

Key information

This course will take place on site, at your child's school. You are advised, and will be supported, to install our learning platform Teams on your phone or any other electronic device. You will be able to access all the course resources and communicate with your teacher via Teams. In the event of a lockdown, the course will take place online via MS Teams.

Possible next steps

Following the successful completion of this course, once you are ready you will be supported to enroll on one of our introduction courses or progress onto any other relevant courses at the college. We offer various Vocational, Multiply, Math, ESOL and Digital skills courses.
