

Wider Family Learning: Saturday Science I – Kitchen science

Course overview

Have great fun with science with us and at home. You don't need a laboratory to do science, science and experiments can be done with things you have in your kitchen. In this course we will use everyday objects and chemicals to explore science.

What will I study?

You will:

- Be able to use simple and safe household chemicals to run your own experiments
- Learn how to be safe when experimenting
- Do at least one new experiment each week
- Have instructions to take home with you to wow the family

Assessment method

- Practical and written activities.

Entry requirements

For parents and children at Key Stage 1 or 2

What should I bring with me?

You will need to bring a pen, paper and a folder to each lesson.
An apron, old shirt/T-shirt from a grown-up or messy play cloths are strongly recommended.
You may also wish to take photos of your child's experiment.

Key information

Where possible this course will take place on site with social distancing measures in place. In the event of a lockdown, the course will take place online via MS Teams or via a remote learning pack.

Possible next steps

Following the successful completion of this course, you may like to enrol in Saturday Science II.
