

LLDD Higher Maths: Measure, Shape and Space

Course overview

This course is for people with learning difficulties or disabilities who want to improve their maths and number skills. The course is designed to help you to gain a greater confidence in understanding maths to help you in everyday life and work.

What will I study?

Some of the topics you will cover include:

- working with whole numbers up to 1000
- measuring and calculating length and distance
- calculating weights and weighing objects
- identifying 3D shapes and objects
- learning using maths games and matching activities
- using a calculator to check and solve decimal maths problems

Assessment method

Online and and paper-based assessments, individual work, group work and various maths activities.

Entry requirements

You should:

- have attended the LLDD Number Skills course
- already have a basic knowledge of maths
- be able to recognise numbers up to 100

What should I bring with me?

You will need to bring a pen, pencil, paper, simple calculator and a folder to each lesson.
